

ENDURANCE Newsletter - 2nd Edition

October 30, 2025

As the ENDURANCE Project marks its first anniversary, we are proud to share recent milestones, key discussions, and future steps in our journey to enhance Critical Infrastructure (CI) resilience across Europe in the second edition of our newsletter.

This newsletter is published twice a year and will aim to provide a brief overview of developments and news concerning the ENDURANCE project that have taken place over the previous months.

Visit the Website (<https://endurance-horizon.eu/>) to learn more about our objectives, meet our partners, and explore how we are contributing to a more resilient Europe.

Should you have any questions in relation to the project, please contact Amélie Cathier, EU Project Manager at Carr Communications, at acathier@carrcommunications.ie.

The ENDURANCE project is a 3-year Horizon Europe initiative funded under Grant Agreement no. 101168007 aimed at strengthening the resilience of Europe's Critical Infrastructures (CI), which includes sectors such as energy, health, digital services, public administration, drinking water and wastewater.

1. Working Group Meetings: Advancing Europe's Resilience Agenda

On 19 June and 14 October 2025, ENDURANCE hosted the 2nd and 3rd Pan-European Working Group Meetings on Disruption Resilience. The June meeting was co-organised with the [SUNRISE Project](#)'s Working Group on Resilience to Pandemics, reinforcing cross-project collaboration in CI security

Experts from across Europe explored strategies for:

- Digital and cross-sector resilience
- Legal and ethical challenges and gaps in building CI resilience
- Technology integration and Digital Twin adoption
- Functional overview of the ENDURANCE Architecture
- The upcoming European Disruption Resilience Strategy developed by the project

The 14 October session marked an important milestone, one year into the project, providing an opportunity to review achievements, discuss learnings from the first year of execution, and validate the strategic and technical directions that will shape the second phase of ENDURANCE.

Partners also reflected on key enablers for integrating resilience solutions into operational environments across Europe.

Through this collaborative exchange, participants contributed valuable perspectives on how to bridge current gaps and strengthen the practical implementation of resilience frameworks across sectors.

Looking ahead, the insights and recommendations gathered during both meetings will support the ongoing refinement of ENDURANCE's methodologies and tools, fostering alignment with broader EU resilience and innovation objectives.

The ENDURANCE consortium extends its sincere thanks to all contributors and participants for their continued engagement and expertise in advancing Europe's collective resilience to disruptions.

2. Plenary Meetings in Rome & Ljubljana

Our Plenary Meetings in Rome (27-28 May) and Ljubljana (21-23 October) gathered project partners to review progress, milestones, and next steps.

ENDURANCE Project Partners in Rome (Italy), 27 May 2025

Highlights included:

- Development of the Digital Twin & Resilience Model
- Trainings, awareness tools & pilot planning
- Ethics, compliance, and policy discussions
- Workshops on exploitation, impact assessment, and resilience strategy

These sessions reinforced the project's collaborative spirit and commitment to tangible impact. We extend our sincere gratitude to our various hosts in Italy and Slovenia for their excellent organisation, support, and warm hospitality.

3. New Videos – Project Insights

Hear directly from our partners! Watch Dr. Denis Čaleta and Nicola Durante share their contributions to the projects and some of the progress made so far.

5. Projects to Policy Seminar, Brussels

On June 4-5 2025, ENDURANCE joined the 6th Projects to Policy Seminar hosted by REA and DG HOME.

Represented by [Liana Predut](#) ([Eviden](#) RO) and [Stella Theologidou](#) ([BRIGHT | diadikasia](#)), ENDURANCE joined other Horizon Europe Cluster 3 projects ([VIGIMARE](#), [TRANSCEND Project](#)) to explore how research can inform EU policy and foster collaboration.

This event represented a valuable platform to exchange on innovation, collaboration, and shared challenges that ENDURANCE seeks to address.

6. ECSCI Cluster & Workshop Participation

As a proud member of [ECSCI - European Cluster for Securing Critical Infrastructures](#) (European Cluster for Securing Critical Infrastructures), ENDURANCE joined the 3rd ECSCI Workshop (Bilbao, April 2025) to present its integrated approach to disruption resilience.

The ENDURANCE Project Coordinator [Liana Predut](#) (Eviden RO) showcased our efforts in:

- Bridging CER and NIS2 implementation
- Building a distributed resilience framework combining data spaces, digital twins, and threat intelligence
- Promoting ethical and cross-sector cooperation

In the spirit of EU-wide collaboration, ENDURANCE continues to contribute to cross-project synergies and innovation within the ECSCI alliance of 50+ EU-funded initiatives.

7. Looking ahead

As we enter the project's second year, ENDURANCE remains focused on developing solutions, strategies and tools to strengthen Europe's ability to withstand disruptions.

Be sure to share this edition of the newsletter across your social channels and tag anyone who you think might be interested in learning more about the ENDURANCE project, its efforts to strengthen the resilience of Europe's Critical Infrastructures, and its contributions to the implementation of the CER and NIS2 Directives.

Thank you to all partners, contributors, and members of our Working Group for your ongoing commitment and collaboration.
